# ID 2100/ID 2200

The Single to Dual-Sided upgradable printer for plastic cards

## FUTURE-PROOF

The ID 2100 can be field-upgraded from single to double-sided ID 2200 printer with a simple drop-in upgrade. The ID 2200 is double-sided out of the box.

## FLEXIBLE

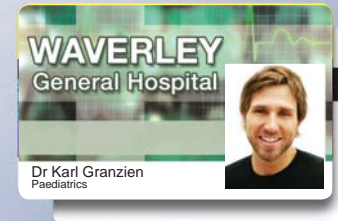

A 100-card feeder at the rear and a hand-feed card slot at the front provides users with both batch-printing and one-off card printing convenience.

## SMART

Attractive, compact design. Colourful LCD display with simple button menu selections. The USB interface and Microsoft certified plus & play driver make the ID 2100 easy to install and easy to use.

## SECURE

The ID 2100 features the patented Holokote watermark technology printed on the card during the normal print cycle with no additional consumable costs.

## YOUR ID CARD PRINTER

<b>HoloKote</b>	An anti-copying watermark across the entire card surface that becomes visible when the card is viewed at an angle. The PPC HoloKote features 4 standard designs.
<b>HoloPatch</b>	Works with HoloKote to produce a highly-visible gold seal on the card, printed using special card stock.
<b>Magnetic stripe (option)</b>	Magstripe encoder for time and attendance and access control.
<b>Duplex (option)</b>	The ID 2100 is a single-sided printer which can be easily field upgraded to dual-sided by means of a simple drop-in upgrade. The ID 2200 is pre-configured as a dual-sided printer.
